

### **Rock It Racing Race Crew Comp Entry Terms and Conditions**

Complimentary race entries are available to volunteers who take on certain positions at Rock It Racing events for the duration of the event. These responsibilities include, but are not limited to, course monitors, aid station captains, check-in leaders, administrative leads, results and awards leaders, race crew and volunteer check in leads. Eligible positions may change without notice and may also include pre-race work such as bib preparation and race packet pick up.

Complimentary race entries are intended for the individual volunteer and may not be bartered, sold, or transferred to another person without the express written consent of Rock It Racing. Violation of this policy may result in denial of future comp entries or Race Crew involvement.

Complimentary race entries must be for races within six (6) months of the volunteer date.

To redeem a free entry, volunteers must take the following steps:

1. Check with Race Director on availability of comp entry for desired race. **Thirty days' notice is required.** There is limited comp entry available in every event, and space is not guaranteed.
2. If space is available and the comp is approved, the Race Director will provide a comp entry code for use when registering online. The code will bring the total to \$0.
3. Transfers from one race to another are possible only on a space-available basis.
